

Pos.	Art. No.	Description	Price/Unit [EUR]	Qty	Total [EUR]
		1 VEIT 8657 Tunnel Finisher 1+2+3 - 400 V / 50 Hz - 170.680,00 consisting of:		170.680,00	1
1.1	124395	VEIT 8657 Tunnel Finisher 1+2+3 base unit -400 V / 50 Hz  <p>consisting of:</p> <ul style="list-style-type: none"> 1 air roller unit at entry 1 pre-treatment unit, 2 steam units with 128 maintenance free nozzles each 3 Veit "Direct Blow" air units 1 "High-Volume" final unit, for a great "doll" effect <p>clearance width 260 mm / 10,2 inch Basic price includes:</p> <ul style="list-style-type: none"> - program control via Touchscreen Display - Integrated program administration via Touchscreen Display - customizable user interface - steam spray pressure gauge - adjustable steam quality according to the different materials (dry or wet steam) - Long Life coating of the inner walls of the steam unit - individually adjustable air flow and air temperature in each "Direct-blow" air unit - Extra big temperature range up to max. 160°C - automatic safety cut-off for the maintenance-free conveyor unit - programmable piece counter (batch/day) - password protected user and service area with different authorization - doors accessible from both sides (user/service) - easily maintainable construction - removable lint filter, easy to clean by user - energy saving heat insulation <p>'- pleasant noise level</p> <ul style="list-style-type: none"> - condensate collecting main - twist-proof hanger guidance - secure unloading at high speeds - integrated maintenance unit for compressed air - evidence of conformity <p>CE for EMC-compatibility, electric safety, machinery</p>		1	incl.
1.2	124401	integrated steam distributor		1	incl.

for optimised steam quality
only one steam connection necessary

1.3	124399	controllable steam suction	2	incl.
-----	--------	----------------------------	---	-------

For better penetration of humidity --> better quality for natural fibres (surcharge for each steam unit)

1.4	124398	Steam/air separation unit	1	incl.
-----	--------	---------------------------	---	-------

for optimised drying effect

1.5	124400	additional suction at the entrance	1	incl.
-----	--------	------------------------------------	---	-------

to avoid condensate* recommended for configurations without pre-treatment unit * Unique selling points

automatic height adjustment Of the "High-Volume" final unit. Recommended for unsorted flow Of garments*
Through sensors automatically 4-times adjustable final unit.
For more volume of the garments.
* Unique selling points

	124403		1	incl.
--	--------	--	---	-------

1.7	124408	Roller direct drive	1	incl.
-----	--------	---------------------	---	-------

1.8	109836	Separator/loader-hangers from left side long	1	incl.
-----	--------	--	---	-------

Transport of metal and plastic hangers

1.9	5862029250	Broad Hangers Guiding at Exit Unit	1	incl.
-----	------------	------------------------------------	---	-------

For stabilisation of the garment at the transport conveyor to the feed off

1.10	124407	Rebounding Wall	1	incl.
------	--------	-----------------	---	-------

For entry unit, for stabilisation of the garments at the transport conveyor

1.11	5862060930	Electronic Parts Feed on & Feed off	2	incl.
------	------------	-------------------------------------	---	-------

1.12	124951	Tailback control	1	incl.
------	--------	------------------	---	-------

1.13	105556	Feeding Clip Conveyor 7 + 2 meters	1	incl.
		included: motor with fastening device, 7m Clipconveyor 2m sliding-line, support-scaffold		

Subtotal:

181.640,00
